

Privacy Policy

Company management is fully committed to preserve the authenticity, confidentiality, integrity and availability of all the personal information used by the company, understanding using personal information as: collecting, registering, organizing, ordering, keeping, adapting or modifying, extracting, consulting, using, communicating by transmission or diffusion or any other way to grant the access, comparison, connection, limitation, elimination or destruction.

The company has prepared the protocol, procedures, standards and protection measures in order to assure the necessary security levels for the personal data according:

- In **Europe**: *Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/*

The personal information and the technical and legal requirements related to the protection of this personal data are always in line with the targets of the company and they also fulfill all the laws and regulations related to the activity. The compliance of the above mentioned regulations, and any other directly related to the personal data protection in a more specific way, is the mechanism used to reduce the risks related to this kind of data to acceptable levels. This policy, and any other protocol, procedure, standard and protection measures will be monitored and checked periodically in order to grant their continuous improvement.

Management establish that all the staff must follow this Privacy Policy, and they also must know the documented procedures for the protection of the personal data, or they must know how to find them out quickly as soon as they need them.

The security targets set for the personal data are focused in assuring the main bases to maintain the privacy protection: authenticity, confidentiality, integrity and availability, from both points of view, technical and legal.

All the company staff will receive **training and information** about personal data protection and best practices. This information will be renewed periodically through a continuous training protocol.

As a proof of commitment to these principles.

Management
